Aspen Technology Announces Date of Fourth-Quarter Fiscal 2018 Financial Results Release, Conference Call and Webcast

Bedford, Mass. – July 30, 2018 – Aspen Technology, Inc. (NASDAQ: AZPN), the asset optimization software company, today announced that it will release financial results for its fourth-quarter and fiscal year ended June 30, 2018, after the U.S. financial markets close on Wednesday, August 8, 2018.

AspenTech will host a conference call and webcast presentation on August 8, 2018 at 4:30 p.m. (Eastern Time) to discuss the company's financial results, business outlook, the implementation of ASC Topic 606 and related corporate and financial matters.

To listen to the earnings call, participants need to utilize the live dial-in number (833) 713-6081 or (702) 374-0603, conference ID code 1967135. The supplemental webcast presentation about ASC Topic 606 will occur at the end of management's prepared remarks and prior to the live Q&A session. To view the webcast, interested parties will need to log on to the Investor Relations section of AspenTech's website, http://ir.aspentech.com/, and click on the "Webcast" link. After the webcast presentation, participants should return to the live dial-in number for the Q&A session.

A replay of the call and webcast presentation will be archived on AspenTech's website and will also be available via telephone at (855) 859-2056 or (404) 537-3406, conference ID code 1967135, through September 23, 2018.

About AspenTech
AspenTech is a leading software supplier for optimizing asset performance. Our products thrive in complex, industrial environments where it is critical to optimize the asset design, operation and maintenance lifecycle. AspenTech uniquely combines decades of process modeling expertise with big data machine-learning. Our purpose-built software platform automates knowledge work and builds sustainable competitive advantage by delivering high returns over the entire asset lifecycle. As a result, companies in capital-intensive industries can maximize uptime and push the limits of performance, running their assets faster, safer, longer and greener.
